

How to Access the MYSQL DB Server hosted in the Cloud using Workbench software:

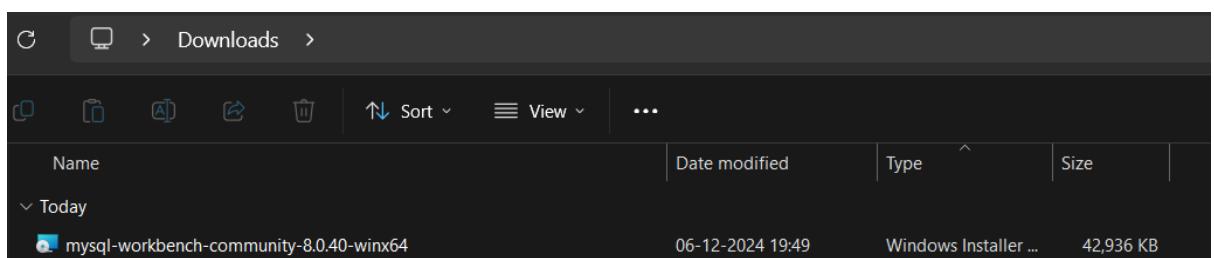

1. Download the mysql workbench software into your Windows/MAC PC

<https://dev.mysql.com/downloads/workbench/>

The screenshot shows the MySQL Workbench 8.0.40 download page. At the top, there are tabs for "General Availability (GA) Releases" (selected), "Archives", and a help icon. Below the tabs, it says "MySQL Workbench 8.0.40". A dropdown menu "Select Operating System:" is set to "Microsoft Windows". Under "Recommended Download:", there's a section for "MySQL Installer for Windows" with the subtext "All MySQL Products. For All Windows Platforms. In One Package." and a thumbnail image of the installer interface. Below this, there's a link "Windows (x86, 32 & 64-bit), MySQL Installer MSI" and a "Go to Download Page >" button. Under "Other Downloads:", there's a table for "Windows (x86, 64-bit), MSI Installer" with version 8.0.40, size 41.9M, and a "Download" button. The table also includes MD5 and Signature information.

2. Install the software in your PC

3. Open the Software

Database -> New

Connection Name : clouddb

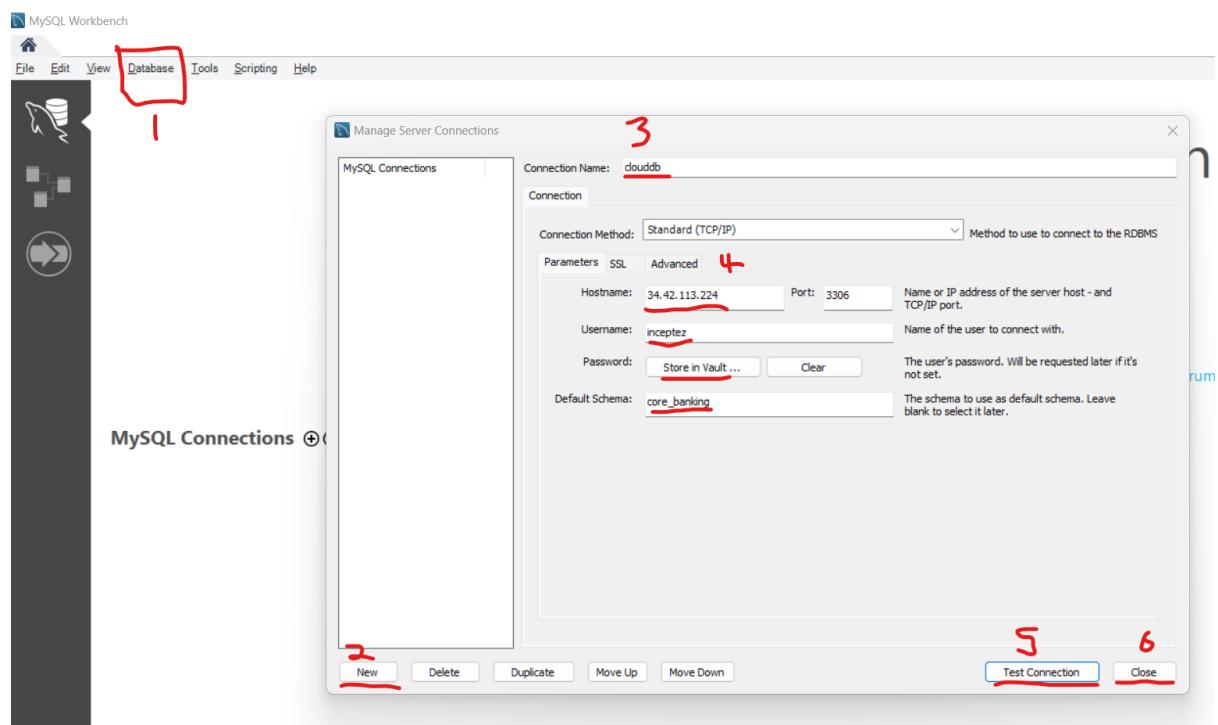

Hostname : 34.42.113.224

Username : inceptez

Password (store in valut) : inceptez

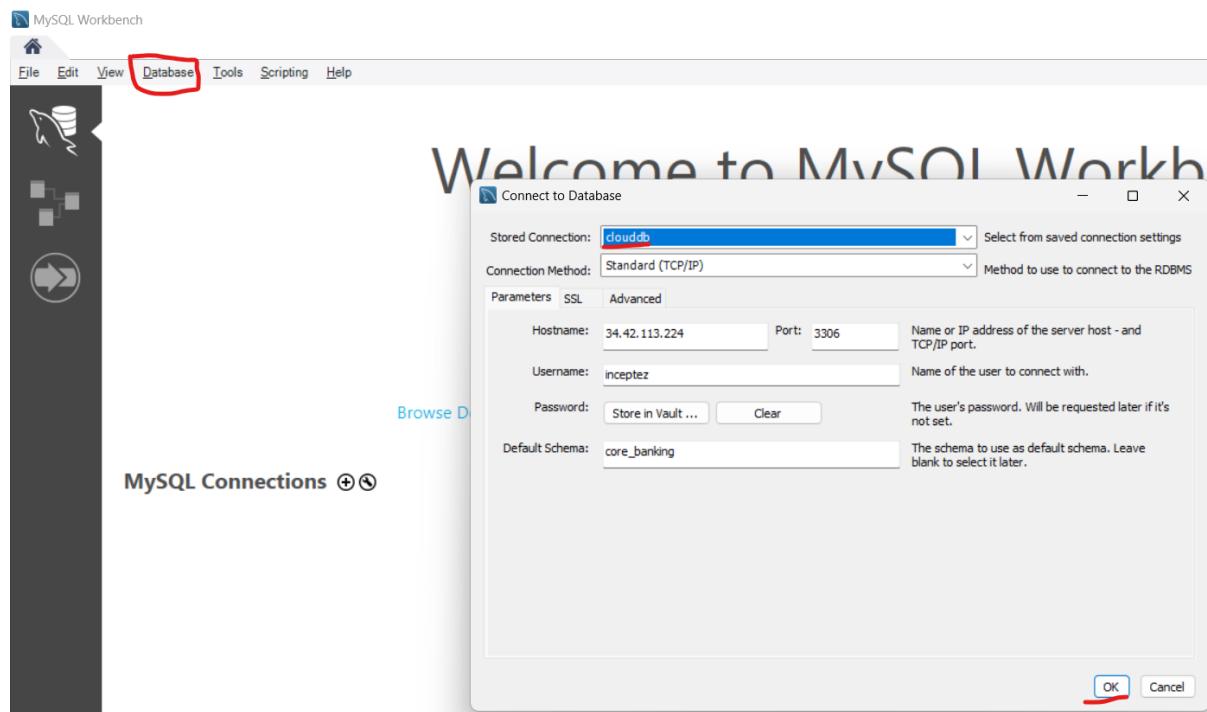

Default Schema : core_banking

Test Connection -> Close

4. Open the Software

Database -> Connect to Database -> Ok

5. Become a Data Analyst/SQL Developer/Data Engineer/Data Solution Architect writing queries

The screenshot shows the MySQL Workbench interface with a database named 'clouddb' selected. The top navigation bar includes 'File', 'Edit', 'View', 'Query', 'Database', 'Server', 'Tools', 'Scripting', and 'Help'. Below the navigation bar is a toolbar with various icons. The left sidebar contains sections for 'MANAGEMENT' (Server Status, Client Connections, Users and Privileges, Status and System Variables, Data Export, Data Import/Restore) and 'INSTANCE' (Startup / Shutdown, Server Logs, Options File). The main area features a 'Query 1' tab with the SQL query 'select * from payments;'. The results are displayed in a 'Result Grid' table:
